Dino Time
(Synopsis)

Dino Time is a story of a daredevil kid named Ernie, his little sister Julia, and his best friend Max, who, while horsing around in Max's inventor father's workshop, accidentally trip a time-machine into operation and find themselves transported back in time 65 million years. Here they get adopted by doting dinosaur mom Tyra (Melanie Griffith) and a rambunctious dinosaur "brother" named Dodger (Rob Schneider). The three kids explore the excitement of the prehistoric world - trying to steer clear of Tyra's evil dinosaur rivals (William Baldwin and Stephen Baldwin) - while back in the present day, Max's dad and Ernie and Julia's overprotective mom (Jane Lynch) plot their rescue.

A TURTLES TALE. SAMMY'S ADVENTURE The secret passage

synopsis

Sammy, a leatherback hatchling, hatches on a deserted beach and while trying to climb up a sand slope is caught by a seagull. He manages to escape along with another hatchling sea turtle named Shelly who was caught by a seagull. Sammy falls onto an old raft and gets carried into the open ocean, losing Shelly. Later he befriends a leatherback hatchling named Ray. The two friends grow up together.

One day Ray shows Sammy his new found Octopus friend Slim, but they are forced to take shelter from an oil spill, caused by an oil tanker shipwreck. After the raft collapses, Sammy and Ray are caught in trawler nets and separated. Hours later, Sammy is thrown back into the sea, but is revived by a dolphin.

Sammy makes it to shore and the next day finds himself in an enclosure, taken in by human hippies and has the company of a cat named Fluffy. Eventually Sammy shares the enclosure with a larger turtle named Vera, however Vera is released into sea as it seems the two are not mating. Not long after that, the unauthorized hippies are evicted by the police, leaving Sammy behind. Sammy returns to the ocean and is rejoined by Vera. On a search for food, Sammy and Vera rescue a female turtle, who turns out to be Shelly.

Sammy and Shelly travel the oceans and ask around in search of the secret passage Sammy heard of. Finally the two turtles brave the dangers of the Panama Canal but separated as they try to pass a mine. Sammy follows her trail to the Antarctic, where is picked up by Ecologists and taken to California where he meets Fluffy once again.

Soon after he is released back in the ocean, Sammy is requested by two leatherbacks to help a trapped turtle in a container. His rescuee is none other than his old friend Ray. With help from Ray's girlfriend Rita, Sammy explores a wrecked galleon and finds Shelly dating with another turtle. Rita reveals that turtle named Robbie is only a playboy. To win Shelly's heart, Ray enlists the help of the toothless shark Albert for Sammy to stage a rescue. Finally reunited with Shelly, the two turtles along with Ray and Rita return to their birthplace to make their own hatchlings.

Oops! Noah is Gone.

Dave and his son Finny belong to a strange species called Nestrians. A clumsy and weird looking animal that seemingly is not really good for anything at all, in fact, they're not even allowed on Noah's ark. But with a sly trick and with the involuntary help of two carnivorous Grymps, Hazel and her daughter Leah, Finny and Dave manage to smuggle themselves on board. But then the ark leaves and Leah and Finny are accidentally left behind. The unlikely duo has to escape the rising waters and save themselves from a mean and villainous couple of Griffins. Along the way they meet a pair of even weirder creatures who were also rejected from the ark and take them along on their perilous journey. The parents who stayed on board the ark do everything in their power to turn the boat around and save their kids. After an action packed showdown our clumsy Nestrians discover their true destiny. Sometimes you have to face the end of the world to find your place in it!

It's the classical, beloved, timeless biblical story of Noah's Ark. This time, though, it's not about the winners, but the losers, who are often a lot more fun than those on the right side of the evolutionary fence. This is the story of Nestrians, Grymps and Griffins animals that never existed. In this "what if?" animated film for youngsters, premium animation technology brings these endearing, brightly colored fantasy creatures to life with a love of detail and originality. From Ulysses Filmproduktion, the makers of the hit "Niko" films.

SURROGATE MOTHER

Synopsis

Freddie Garcia is a product of a technology called Surrogacy. His mother's womb is not capable of nurturing a child for nine months, so her parents used this technology to give birth to Freddie. It takes three to perform this technology, a Mother, a Father and a Surrogate mother.

Freddie knows that he is a surrogate child, but the idea of finding his surrogate mother, or even knowing her name never crossed his mind. Until the day his client, Mrs. Perez, makes him realize that without this woman, he would not have been given a chance at Life. That day gave birth to Freddie's urge to find his Surrogate Mother, and he knows exactly where to start to find her. He goes to Dr. Lolita Soltera, the midwife who helped bring him into this world.

It took Freddie thousands of pesos just to acquire information about his surrogate mother, a woman by the name of Thelma Muros. And as Freddie learned that he has four surrogate siblings, it took him thousands more to get information about all of them.

With the help of the Internet, Freddie searched for his four surrogate siblings. He meets them all in his humble clinic. The lawyer Wilma Santos, the teacher Maribel Soriano, the commercial model Aaron Cuneta and the Goth Jericha Rosales. It wasn't easy but Freddie made a way to convince them to search for their surrogate mother. A search that embarks them to a roller coaster ride of a journey.

The story is about five strangers banding together in search of the one link that connects them all, their Surrogate Mother.
