GERMELINA H. PASCUAL CESO V
Schools Division Superintendent

Dear Dr. Pascual,

Mabuhay!

This is to seek from your good office your usual support in inviting elementary and high school students and as well as teachers to "THE TRAINING-WORKSHOP ON THE CONDUCT OF SCIENTIFIC RESEARCH" on July 11, 2020 at Swiss-Belhotel Blulane, Chinatown, Manila, Philippines. The program aims to develop learners that are skilful enough to propose solution to the existing societal, environmental and other significant problems through the conduct of research. This will be conducted by the finest international research advisers of the country.

For almost a decade, yours truly have been mentoring students that have won in both national and international research platform. Numerous international research champions have been produced through the research programs that I organized which include a winning of the 3 minor planets in the galaxy awarded by the Lincoln Laboratory and numerous international awards coming from Intel-International Science and Engineering Fair-USA and ASEAN Science Project Competition. We have already trained around 3,000 students and teachers nationwide since we started this training program.

It is our passion and part of our societal responsibility to continue to hone young researchers that would serve as our allies in finding solutions to our daily life challenges. By doing so, we could be able to create citizens that are creative, critical thinkers and problem solvers. For the past three years, we have produced more than 500 student-made research projects through the National Science and Engineering Fair (NSEF) Philippines and we are continuously promoting various research program to help create a society with numerous scientific minds that would serve as our allies in finding solution to both societal and environmental concerns.

This program is organized by the STEM Education Training Hub, a training and consultancy center for students and teachers that specializes on training programs on education, research and STEM programs. We seek for your support in this great endeavour by helping us disseminate this information.

The registration form and the program are attached to this letter.

Thank you very much!

Sincerely,

JOSEPH R. JACOB, LPT, MAED, MBA, FRIEDr
Director

TRAINING-WORKSHOP ON THE CONDUCT OF SCIENTIFIC RESEARCH

July 11, 2020

Swiss-Belhotel Blulane, Chinatown, Manila, Philippines

Time	LEARNING OUTCOMES	TOPICS
8am – 12nn	Determine research ideas and narrow it down to testable, feasible and economically-relevant topics.	Science Investigatory Projects: A Key to Ignite Students' Creativity and Research Skills
	Write the first draft of the experimental design and STEM investigatory project plans	Developing an Investigation Plan Background Research and Documentation
1pm- 5pm	Collect, analyze, interpret and communicate results through appropriate graphical representations and effective writing	Data Collection, Analysis and Interpretation
	Communicate the findings of the investigation through effective writing of the STEM research paper	Writing the STEM Research Paper: The IMRaDC Way
	Prepare the necessary entry requirements for Science Fairs	Preparation for STEM Fairs
