DR. MAY B. ECLAR

Regional Director

DepEd – Region III

Maimpis, City of San Fernando, Pampanga

Dear Dr. Eclar:

The usefulness of radio-based instruction has been documented as early as 1970's. Indisputably, radio, as part of mainstream traditional media, alongside print and television, is considered as more far-reaching as compared to the reach of the internet, as not all parts of the country have stable and modern infrastructures that can support the existence of online learning, most especially in the current pandemic setting. Thus, **ARCZONE Professional Development, Inc.** promotes **radio-based instruction (RBI)** as a means of facilitating learning and teaching experience in areas that deal with challenges in laying the groundwork for online learning system due to intermittent internet access.

Our Company is pleased to present to you one of our programs which has been recognized by DepEd-NEAP (National Educators Academy of the Philippines). This is the "Remote Learning through Radio-Based Instruction in the New Normal" with Program/Course Recognition No. PD-2021-0005-0312. This program has been awarded 15 CPD units by the Professional Regulation Commission (PRC).

In line with this, we would like to establish a partnership with you in running this program in various Division Offices within your region. This program aims to equip our educators with skills in handling the technical requirements of RBI and in carrying out troubleshooting in the implementation of learning and teaching activities. Moreover, the duration of this program takes more than the usual 2-3-hour webinars as this is not just a webinar but an online training-workshop which engages the participants in various synchronous and asynchronous tasks for five (5) days.

Lastly, we take pride in underscoring the composition of our pool of RBI trainers who are experts from reputable universities and broadcasting industry whose commitment extends even during offline sessions.

Should you have further inquiries about this program, we would be happy to schedule a virtual meeting with you. Also, you may reach us through our contact details.
