SEBASTINIAN NATIONAL RESEARCH ASSEMBLY Office of the SDS

OCTOBER 25, 2021

ZENIA G. MOSTOLES, Ed. D., CESO V
Schools Division Superintendent
Schools Division Office – Bulacan

RECEIVED
NOV 03 2021

By: _____
Time: _____

Dear Dr. Mostoles:

Greetings of Peace in the spirit of St. Sebastian!

The Sebastinian National Research Assembly Volume II: Adhikain as spearheaded by the Senior High School Department of San Sebastian College – Recoletos, Manila open its doors to the Junior and Senior High School students of all Private and Public Schools nationwide, with the theme: **"Visioning Opportunities and Possibilities Towards Sustainable Development through Research."** A celebration of talent, innovation and excellence of student-researchers in exemplifying their talents and strengthening their skills through research.

The first edition of the Sebastinian National Research Assembly successfully involved 23 research presenters and their research papers among the Recollect schools in the Philippines. Furthermore, the first volume of SNRA reestablished the connection with the other Recollect Schools to collaboratively work with one another in redefining excellence through research in the new normal.

As the second leg of the research assembly commence, the Sebastinian National Research Assembly Volume II: Adhikain aims to create an arena where students from different schools will collaborate with their ideas, discuss their vision and widen their horizon and perspective in research. This gathering is made to empower the student researchers with their advisers as they present and share their papers in the community.

The Sebastinian National Research Assembly Volume II: Adhikain, in response to the needs of the global community, will be an avenue to improve studies that is aligned with the Senior High School Department's online learning mode branding – the SHS EDGE, where the last "E" stands for "Education that meets global standard". Through this assembly, we can witness how students are developed and trained to create a research paper which is essential to our daily living and as we adapt the changes in our environment.

Furthermore, we would like to invite all Junior and Senior High School under your division office on the said research assembly. Call for abstract will start on October 13, 2021 until December 10, 2021. Attached with this invitation is our SNRA 2021 Primer, which includes all other details, like payments, guidelines and other relevant information needed for the assembly.

Looking forward for your participation and support. *Bravo Baste!*

In Christ,

MR. SAMUEL E. ALFON
Chair, SNRA 2022
