OUA MEMO 00-1121-0174

MEMORANDUM

17 November 2021

For: **Regional Directors and BARMM Education Minister
Schools Division Superintendents
School Heads
All Teaching Personnel**

Subject: **TIKTOK FOR EDUCATION: THE EDUCATOR'S CONTENT
CREATION FOR INTER-CHANGING INSTRUCTION**

The Office of the Undersecretary for Administration (OUA) through the Information Communications Technology Service-Educational Technology (ICTS-EdTech) Unit promotes digital literacy awareness and educational content creation for teachers.

Teaching through social media platforms has been a trend in education. It encourages students to learn by using different social media platforms, attracting a broad audience while promoting learning.

As the transition to remote learning has evolved, cultivating a meaningful relationship with students has become more challenging. For this reason, the ICTS-EdTech Unit will conduct a webinar session for all public school teachers on the **use of TikTok as an educational platform** and how it can be used as a tool for the successful delivery of educational video contents.

The webinar aims to:

1. Equip teachers with the necessary skills to create engaging, informative, and useful content;
2. Use the platform for fun, enjoyable, and interactive learning;
3. Discover and utilize free websites and applications for teachers to learn more by using the social media application; and
4. Motivate our teachers to use this tool to enhance instruction by creating educational content.

Office of the Undersecretary for Administration (OUA)
