In relation to the OUA MEMORANDUM 00-1221-0030 titled, "**GOOGLE WORKSPACE TRAINING PROGRAM**" issued last 02 December 2021 (attached), please be advised that the training sessions started last December 2021 and will proceed until March 2022 (*unless an extension will be granted*).

Some courses are packaged with certification examinations in order for qualified DepEd personnel to become certified Google professionals.

For interested applicants, please visit <https://sites.google.com/depd.gov.ph/gsuitetraining/home> and click the "**Sign up for the Master Trainer Program**" to fill-out the form and select the desired course.

All qualified applicants will be notified via their official DepEd email accounts and will include training schedule/s and other requirements that need to be accomplished prior to the assigned training date as slots for the training will be on First Come, First Serve basis.

Once applicants receive their training schedules, it is advised that they strictly attend on the allotted schedule. If for some reason that the attendee will not be able to attend the training, he/she will be given one (1) more chance to secure a training slot but needs to notify the assigned ICTS-USD personnel whose email address is indicated below.

For other concerns, kindly send an email to Ms. Nina Rica Bernas at icts.usd@neap.ph.education.

For your information and immediate dissemination.

MEMORANDUM

02 December 2021

For: **Regional Directors and BARMM Education Minister
Schools Division Superintendents
Public School Heads
Regional and Division Information Technology Officers
All Others Concerned**

Subject: **GOOGLE WORKSPACE TRAINING PROGRAM**

In line with the success of the Google Suite (G Suite) for Education Enablement Virtual Training Program held last year (OUA Memo 00-1020-0156), the Department of Education (DepEd) through the Information and Communications Technology Service (ICTS) and the National Educators Academy of the Philippines (NEAP), in partnership with Google for Education and Q Software Research Corporation (QSR), will enhance the program (i.e., training courses, examination vouchers, etc.) with the introduction of the above-mentioned subject.

The objectives of the **Google Workspace Training Program** are the following:

1. Enable participants to develop skills necessary to support 21st-century learning and professional development as well as co-create the future of learning.
 - a. Support the application of 21st-century learning skills that promote critical thinking, collaboration, creativity, and communication.
 - b. Support the development of essential and technical skills to create a holistic approach for education professionals.
2. Provide trainings on the use of Google Workspace for Education (formerly G Suite for Education) tools for everyday functions.
3. Effectively introduce a wider range of Google Workspace for Education tools and other technologies to transform instruction.
4. Enable participants to develop and improve skills as trainers who will help other educators in using classroom technology.
5. Help participants build fundamental and advanced technical skills to effectively use the Admin Console.

II. Courses

A. Basic G Suite

This training workshop is designed to give **G Suite for Education** end-users a higher level of understanding of communication and collaboration tools within Google Workspace.

- Goal 1:** Identify new Google Workspace tools to make work easier and more efficient.
- Goal 2:** Integrate the use of Google Workspace tools for a seamless workflow.
- Goal 3:** Formulate practices to initiate change in management of tasks through the use of Google Workspace tools.

To further strengthen the skills and knowledge of basic Google Workspace participants, a supplementary course (*i.e., Be Internet Awesome*) will also be provided that will focus on equipping education professionals with the skills necessary to become responsible digital citizens.

Supplementary Course 1: Be Internet Awesome

This training is designed to give teachers an introduction and higher level of understanding to the *Be Internet Awesome* curriculum developed by Google. This is to provide teachers, learners, parents, and other school community members different resources to be SMART, ALERT, STRONG, KIND and BRAVE while accessing the internet.

B. Google Certified Educator Level 1 (GCE Level 1)

This aims to enable educators and students to demonstrate proficiency in using Google Workspace for Education (GWiE) tools for a more effective and innovative integration of technology in the classroom.

- Goal 1:** Administer technical assistance to the users of Google Workspace.
- Goal 2:** Develop a digitally literate community for a more conducive online learning environment.
- Goal 3:** Establish the significance of collaboration and use this for online learning.
- Goal 4:** Construct relevant and up-to-date training resources for online learning.

To reinforce learning and encourage its day-to-day application especially in integrating technology in learning implementation, participants can also proceed to take GCE Level 1's supplementary course, *Distance Learning*.

Supplementary Course 2: Distance Learning

This training course focuses on equipping learners with practical skills and strategies in using Google Workspace tools for distance learning. Through this course, education professionals can integrate technology into the classroom.

- Goal 1:** Identify different online tools and applications in creating an interactive learning environment.
- Goal 2:** Create an interactive learning material using Google Workspace tools.
- Goal 3:** Apply advanced online searching techniques for more relevant results.

C. Google Certified Educator Level 2 (GCE Level 2)

This training workshop is designed for educators and classroom teachers who implement Google Workspace. It will push educators to rethink their teaching practice and redefine it with new possibilities. This is for educators with a deeper understanding of Google Workspace and advanced technology integration skills.

The Level 2 Google Certified Educator status indicates that an educator can successfully integrate a wider range of Google for Education tools and other technologies into their teaching practice.

- Goal 1:** Provide assistance to other GWiE users.
- Goal 2:** Foster a digitally literate community for a more conducive online learning environment.
- Goal 3:** Develop advanced skills on the use of collaboration tools and use this for online learning.
- Goal 4:** Develop training resources for online learning.

To strengthen the skills developed in GCE Level 2 and for the participants to continuously innovate strategies for better learner experiences, supplementary courses are also provided.

Supplementary Course 3: Designing Virtual Learning

This program is designed to equip teachers with the knowledge, skills, and ability to design frameworks for effective learning experiences in different contexts.

Supplementary Course 4: Facilitating Virtual Learning

This program is designed to support teachers in preparing for different modalities that will allow them to future-proof the way they deliver instruction, no matter what situation they encounter.

D. Google Certified Trainer (GCT)

This shall empower educators in using and teaching various GWfE tools in a more efficient manner. It shall also help in finding ways to improve student's learning and foster leadership skills for educators.

Goal 1: Establish key skills to become training leads in their institutions.

Goal 2: Transform the learning environment through skills improvement.

Goal 3: Create a venue for collaboration and hone skills with other Google Certified Trainers around the world.

To be able to lead more effectively, participants are also encouraged to take the supplementary courses: *Foundations of Strengths-Based Development* and *Giving and Receiving Feedback*.

Supplementary Course 5: Foundations of Strengths-Based Development

This training course aims to aid in the development of the participants based on honing one's skills and talents and maximizing its fullest potential.

Supplementary Course 6: Giving and Receiving Feedback

Effective and timely feedback is one of the keys for a successful work interaction. In this training course, participants will be introduced to the value of feedback and the principles behind giving, receiving and seeking feedback.

E. Senior Leaders Lab (SLL)

This training course is designed to be a transformative coaching experience for education professionals. This shall use the design thinking method to equip participants with skills necessary to create an adaptive and responsive workplace.

- Goal 1:** Provide guidance and planning in transforming schools' practices to easily adapt to change.
- Goal 2:** Train leaders to be adaptive and innovative.
- Goal 3:** Create an action plan that allows institutions to easily navigate through changes.

Adapting to constantly changing learning environments requires continuous learning and strategy planning from school leaders. With this, SLL participants can further refine their skills through taking its supplementary courses, *Developing the Growth Mindset* and *Activating the Growth Mindset*.

Supplementary Course 7: Developing the Growth Mindset

This training course aims to guide participants in identifying ways to cultivate their own growth mindset.

Supplementary Course 8: Activating the Growth Mindset

Through this training course, participants will be able to turn their mindsets into observable behavior and positive attitudes that can be applied both in the workplace and at home.
