### MESSAGE

It is my great pride and honor to congratulate graduates of Academic Year 2021-2022 in the Province of Bulacan!

The impact of the public health crisis has left a tough trail for us, but you, our dear graduates, have persevered and remained resolute in your pursuit of academic success. With the same resilience you have shown in these challenging times, I have great reason to believe that you can get through any setback as you embark on your new journey ahead.

This year's Commencement Exercises marks the end of the darkest phase of the pandemic and the start of our journey to a new normal with great hope for a better way of life. I commend our education sector for staying committed to provide quality education to the Bulakeño youth amidst all difficulties.

After two longing years, you are back in your beloved school to personally receive the fruit of your hard work. Let us take this moment to thank your families and teachers for their unwavering support to help you achieve this milestone. All glory belongs to God Almighty!

Again, congratulations to our graduates and I hope you continue waving the flag of hope for our beloved province. *Mabuhay ang Kabataang Bulakeño, mabuhay ang dakilang Lalawigan ng Bulacan!*
