Dear Ma'am,

May we respectfully request again for DepEd advisory this SY2022-2023 for **EXPERIENCE**, in partnership with **SKYMOBILE**.

In line with the DepEd Memorandum No.47, s. 2017 entitled Moratorium on DepEd educational field trips and activities outside of the school premises, **EXPERIENCE** commits to **bringing premium educational activities inside the comfort and safety of the school campus**.

Aware of the "Time On Task" Policy and the strict compliance with the "180 days teaching and learning guidelines", we coordinate the schedule of activities with the Science Department of the school, utilizing only the science period of the participants and making sure no disruption of other classes.

Based on the curriculum of K-12 Program of the Department of Education, we provide different science activities including Astronomy & Environmental Awareness Program. We use the most advanced Digital Planetarium system. We also have manipulative exhibits where in the students themselves can explore and experience the concepts of science. There is also a selection of dynamic 3D movies about nature: from distant past and the modern future; water and land based creatures; extinct animals and plants; and also about outer space explorations. With General Patronage rating by the MTRCB, the select movies are both entertaining and educational and target all ages of curious minds.

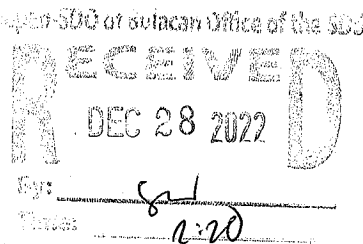

The following are the activities for the two program sets to fit the needs of your student body:
