Dear **Hon. Valderama,**

Warm greetings.

I am **Edison D. Cruz**, Director of the **Technology Management Center (TMC)** of the University of the Philippines Diliman. Our academic unit, based in Diliman, is engaged in graduate education through the **Master of Technology Management (MTM)** program, as well as in research and extension initiatives that aim to contribute to national development.

In line with the University's mandate to deliver meaningful **extension and public service programs**, the TMC regularly conducts **free webinars and capacity-building activities** designed to enhance the competencies of educators, students, and higher education administrators. These initiatives focus on equipping participants with practical knowledge and emerging tools relevant to today's rapidly evolving digital and educational landscape.

For the last week of April and early May, we are pleased to offer the following webinar topics:

- **Low-Cost & Smartphone-Based EdTech Tools**
- **Empowering Educators through AI: Utilizing Gen AI Tools and Strategic Prompting**
- **Gamified & Interactive Teaching: Using Digital Tools to Increase Student Engagement**

These webinars are **free of charge** and accessible to participants nationwide. For the Province of Bulacan, our intended beneficiaries include **teachers, students, and academic administrators** from secondary schools and higher education institutions, particularly in the municipalities of **Norzagaray and Sta. Maria**.

In this regard, we respectfully request the support of your good office in **disseminating information about these webinars** to schools under your jurisdiction. Your endorsement and assistance in promoting these activities will greatly help us reach more educators and learners who can benefit from these capacity-building initiatives.

We would be glad to provide additional details, including schedules, registration links, and promotional materials, should your office require them.

Thank you very much for your continued commitment to advancing education and for your valued support in this endeavor.

Respectfully yours,

EDISON D. CRUZ, MBA
Director
