**EARTHLINGS: ENVIRONMENTAL AWARENESS PRODUCTION
FOR SCHOOL YEAR 2026-2027**

Earthlings, the country's first science-themed light show, announces the conduct of its **Environmental Awareness Production** for School Year 2026-2027. In support of RA No. 9512 or the National Environmental Awareness and Educational Act, and with the backing of IAU, UNESCO, NASA, UP Astrosoc, DOST, and DENR, the program aims to integrate environmental education across all levels of schooling, promote scientific curiosity, foster love for STEM subjects, and highlight the need to preserve the planet for future generations.

The program offers two sets of activities: **Program 1** — LUMINA (science-themed light show), World of Wonders (hands-on optical illusions gallery), and Interactive Floor (motion-responsive games); and **Program 2** — Digital Planetarium, NASA Photo Gallery (3D anaglyph display), and Authentic Meteorite Display. Activities include both indoor and outdoor immersive learning experiences. For more details, please refer to the attached letter/invitation.

Participation of learners and teachers from public and private schools shall be purely voluntary and will not hamper instructional time in compliance with the provisions of DepEd Order (DO) No. 009, s. 2005, titled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith, and the policy on off-campus activities stated in DO 66, s. 2017. This is also subject to the no-collection policy under Section 3 of Republic Act No. 5546, also known as the Ganzon Law, issued in DO 19, s. 2008, and reiterated in DepEd Memorandum No. 041, s. 2024.

A Magical Coalescence of Arts and Science

Earthlings

The Country's First Science-Themed Light Show

DR. TOLENTINO G. AQUINO, CESO III
Regional Director
Department of Education Region III

Dear Sir,

Warm Greetings!

In a world where environmental degradation is a growing concern, it's more critical than ever for people to understand the importance of **Environmental Protection, Sustainability, and Climate Consciousness**, helping learners understand and address environmental issues and empower them to make responsible decisions, as declared through **RA No. 9512, the National Environmental Awareness and Educational Act**.

In light of this, I would like to introduce our new program - **Earthlings**. This year's **Philippines' First-Ever "awe-spiring" call-to-action Environmental Awareness Production**. All our programs are in support of the International Astronomical Union (IAU), United Nations Educational, Scientific and Cultural Organization (UNESCO), National Aeronautics and Space Administration (NASA), UP Astrosoc, DOST, and DENR. In addition to this, DepEd National highly supports this partnership through DepEd Advisory No. 098.

A creative and engaging way of bridging the gap between the analytical brain and the emotional heart. This emphasizes the integration of environmental education across all levels of schooling through activities that target learners' ability to understand how all living things are interconnected, promote scientific curiosity, foster love for STEM subjects, and highlight the need to preserve the planet for the next generations. An outbox innovative out-of-the-box curriculum integration combined with outdoor (*outside the classroom*) immersive learning portals.

Thus, we request your good office to extend your unwavering support for this noble engagement for your learners. Attached to the following page are the specifics of our activities.

It's with great honor and pleasure to partner with you and numerous other reputable educational institutions on this endeavor for the school year 2026-2027. We believe that through your leadership, our consolidated program will come into reality.

Enthusiastically Yours,

Godofredo A. Tunat Jr.
Program Director

A Magical Coalescence of Arts and Science

Earthlings

The Country's First Science-Themed Light Show

Program 1

Activity 1: LUMINA – A twenty-minute luminescent edutainment woven to illuminate our minds by connecting the bridge between the Arts, Music, and Science.

Activity 2: World of Wonders – Hands-on gallery of engaging optical illusions and life-sized gadgets learners can manipulate and explore.

Activity 3: Interactive Floor - Motion-responsive games and activities for all ages, which perfectly demonstrate how advanced our technology has now become.

Program 2

Activity 1: Digital Planetarium - Display the process of creation dynamics, and its basic components in which matter got its model or existence, development, and extinction in a modern digital manner. Helping students grasp abstract astronomical concepts in light of sparking their enjoyment and interest in science.

Activity 2: NASA Photo Gallery - Three-Dimensional (Anaglyph) Display of Astronomical Photos with Description.

BONUS: Authentic Meteorite Display (Hands-On Experience) - A rare experience of hands-on observation of authentic meteorite fragments for students.
