2026 NATIONAL SCIENCE CLUB MONTH (NSCM 2026)

The Philippine Society of Youth Science Clubs (PSYSC), Inc., in accordance with Presidential Proclamation No. 264, s. 2002, announces the celebration of the 2026 National Science Club Month (NSCM 2026) this September 2026, open to elementary and high school students and science teachers nationwide. Major activities include the National Science Clubs Summit (SUMMIT), PSYSC Science Olympiad (PSO), Mathematics, Science, at *Kapaligiran* (MSKA), and I Teach Science Seminar (ITSS), to be held on September 5-6, 2026, at regional sites, including Region III, and on September 26, 2026, at the National Capital Region for the national finals. For more details, please refer to the attached letter/invitation or visit www.facebook.com/psysc.nscm.

Participation of learners and teachers from public and private schools shall be purely voluntary and will not hamper instructional time. All concerned are enjoined to observe the instructional blocks under the three-term school calendar strictly and to ensure that participation in this activity does not disrupt scheduled instructional time, in compliance with the provisions of DepEd Order (DO) No. 009, s. 2026, titled Guidelines on the Implementation of the Three-Term School Calendar in Basic Education and Activities, and DO 9, s. 2005, titled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith, and the policy on off-campus activities stated in DO 66, s. 2017. This is also subject to the no-collection policy under Section 3 of Republic Act No. 5546, also known as the Ganson Law.

TOLENTINO G. AQUINO

Regional Director
Department of Education - Region 3

Dear Director Aquino:

Greetings from the Science Clubbing Movement!

For 55 years, the **Pambansang Kapisanan ng mga Kabataan Samahan ng Agham (Philippine Society of Youth Science Clubs), Inc.**, as the first and largest umbrella organization of science clubs in the Philippines, has remained steadfast in delivering high-quality programs and activities to elementary and high school science enthusiasts nationwide. Through these initiatives, the organization advances its core mission of promoting the public understanding of science, technology, and the environment (PUSTE).

As mandated by the Presidential Proclamation No. 264, s. 2002, PSYSC is honored to join the nation in celebrating **National Science Club Month (NSCM)** this September 2026. The month-long celebration will feature a series of lectures, workshops, and engaging activities designed to cultivate learners' appreciation of science. These events are open to elementary and high school students, as well as teachers, from across the country.

NSCM will commence with its flagship event, the **National Science Clubs Summit (SUMMIT)**, a one-and-a-half-day gathering featuring lectures, workshops, and interactive activities that promote science, technology, and the environment (ST&E), while fostering camaraderie among elementary, junior high school, and senior high school science club members. Other major activities include the **PSYSC Science Olympiad (PSO)**, a well-established annual nationwide inter-school science quiz competition for elementary and high school students; **Mathematics, Science, at Kapaligiran (MSKA)**, which consists of regional science workshops conducted during the SUMMIT and culminates in a national-level competition in the National Capital Region; and the **I Teach Science Seminar (ITSS)**, which provides science educators with opportunities to exchange effective pedagogical strategies and innovative approaches for delivering engaging lectures and workshops.

To make the spirit and opportunities of NSCM more accessible to science club members across the country, PSYSC has established multiple regional centers to ensure broader participation and inclusivity. The SUMMIT, ITSS, MSKA Interactive and Engineering Science Challenge, and the PSO National Eliminations will be

conducted simultaneously on September 5-6, 2026, across the following regions: Regions I, II, III, V, VI, IX, XI, and XIII. This simultaneous implementation allows students from diverse parts of the Philippines to experience NSCM within their respective localities.

Additionally, independent sites for the PSO National Eliminations will be held on September 5, 2026, in selected regions to further expand accessibility and participation. The PSO National Finals and MSKA Proper will be conducted simultaneously in the National Capital Region (NCR) on September 26-27, 2025, where top-performing participants from across the country will convene for the culminating competitions.

All official announcements, updates, and detailed information will be posted on our official Facebook page (www.facebook.com/psysc.nscm) and disseminated via email through nscm@psysc.org. A summary of the important dates and regional locations for each sub-event is provided below.

EVENT	REGIONAL SITE	DATE
SUMMIT	Regions 1, 2, 3/4A/4B, 5, 6, 9, 10/11, and 13	September 5-6, 2026
SUMMIT-MSKA

In view of the foregoing, we respectfully request from your esteemed office the issuance of a DepEd Regional Advisory to facilitate the timely and widespread dissemination of information regarding NSCM 2026. Your endorsement is instrumental in ensuring the broadest possible reach of this initiative, which seeks to cultivate innovation, collaboration, and problem-solving skills among the youth through science club activities.

For your reference, we have attached the proposed draft of the DepEd Advisory together with the detailed event descriptions for NSCM 2026. We sincerely seek your support in ensuring the successful conduct of this nationwide celebration. Should you require further information, documentation, or clarification, please feel free to contact us at 0956 190 7449 or via email at nscm@psyc.org.

Thank you very much for your continued support. Let's keep the fire of science-clubbing burning!

In service of the Filipino youth,

Ish Novielle Digdigan

Director

Event Descriptions

National Science Club Month 2025

September is considered the **National Science Club Month (NSCM)** under Presidential Proclamation No. 264. During the NSCM, the **Philippine Society of Youth Science Clubs (PSYSC)** conducts activities that encourage the youth to actively participate in the science clubbing movement. Through these activities, PSYSC aims to provide a venue for the interaction of science clubs and to recognize excellence through workshops and friendly competitions. The four (4) main events that will kick-off this year's NSCM are the National Science Clubs Summit (Summit), PSYSC Science Olympiad (PSO), I Teach Science Seminar (ITSS) and Mathematics, Science at Kapaligiran interactive Workshop (MathSciAKa).

The **National Science Clubs Summit (SUMMIT)** is a one and a half-day gathering of high school science club affiliates, conducted simultaneously in different regions. The event is an opportunity for the different science clubs to learn from lectures, workshops, and plenary sessions. The SUMMIT brings the camp experience closer to our affiliates who are not able to attend the National Youth Science Technology and Environment Summer Camp (NYSTESC). Exciting trademark activities of SUMMIT include Sub-camp Quiz Competition and fun-filled Science workshops. SUMMIT also offers the chance to experience MathSciAKa, an event which provides a set of interactive workshops.

The **Philippine Society of Youth Science Club Science Olympiad (PSO)** is an inter-school quiz competition for elementary and high school students all over the country. This Olympiad consists of two rounds: (1) the National Eliminations, conducted simultaneously in different regions, which will be a written exam that will challenge the students' knowledge on various science categories, and (2) the National Finals, which will be composed of theoretical and practical rounds. Prizes would include cash, plaques, medals and certificates.

The **I Teach Science Seminar (ITSS)** is a two-day activity catering to science teachers of affiliated schools. It is an enrichment seminar packed with lectures, workshops, and discussions for teachers featuring ways on how they can make science teaching fun and interactive. This is PSYSC's way of thanking the teachers for the service they bring to the youth and as well as to the organization.

MathSciAKa is an event composed of many different science workshops known as the Mathematics, Science, At Kapaligiran (MathSciAKa). MathSciAKa has been designed to challenge both the physical and mental capabilities of participating science clubbers. It is usually celebrated on two separate dates – every 1st week of September during the NSCM-SUMMIT which features two sub events: the Engineering Science Challenge and the Interactive Workshop; and every 3rd week of September within the National Capital Region during the MathSciAKa Proper consisting five sub events: Interactive Workshop, On-the-spot Workshop, Take Home, Mystery Workshop and the Workshop Fair.

CORPORATE EVENTS
SEASONAL EVENTS

WANDERING MINDS PH

We believe that high-quality science education should be accessible to all students, regardless of their financial background.

Our programs are designed to be inclusive, with voluntary financial contributions ensuring that no student or school feels pressured or obligated to contribute.

We strive to make science education an exciting and enriching experience for every learner.

Join Wandering Minds Science Mobile Exhibit on a journey of discovery and learning, where science meets adventure, and curiosity leads to a brighter future.

OUR SERVICES

THE ULTIMATE 3D SCIENCE EXPERIENCE

The Ultimate 3D Science Experience is an innovative and comprehensive program that provides an immersive and engaging learning opportunity for students of all ages. With a Chroma Key Workshop, over 20 science manipulative exhibits, a 3D movie experience, a telescope lecture, and object viewing, students can explore the worlds of special effects, physics, biology, chemistry, astronomy, and more. Through hands-on experimentation and exploration, students can develop their critical thinking, problem-solving, and creativity skills.

- Chroma Key Workshop /Green Screen
- Over 20+ science manipulative exhibits
- 3D Movie in Digital Surround Sound using 3D eyeglasses
- Telescope lecture and object viewing

JURASSIC ON WHEELS AND THE WORLD OF AI

Introducing Jurassic On Wheels: A New Educational Experience. Our immersive experiences promise to captivate learners of all ages. Witness historical inventions and their societal impacts unfold before your eyes. Explore the cutting-edge realm of artificial intelligence in "World of AI," discovering its fascinating history and limitless potential. Experience the thrill of Dino 3D Encounter where life-sized dinosaurs come to life. Uncover the mysteries of dinosaur evolution and extinction in "Jurassic Explorations," exploring into the latest discoveries and research in paleontology. Our "You Are What You Eat" attraction examines nutrition and health, educating students about the impact of dietary choices on their overall well-being.

- Dino 3D Encounter
- Timeless Treasures
- Jurassic Explorations
- World of AI Artificial Intelligence
- You are what you EAT

SPACE DOME MOBILE PLANETARIUM

Space Dome Mobile Planetarium Experience offers a unique opportunity to explore the wonders of the universe within the comfort of your own school. Our portable planetarium is equipped with a state-of-the-art projector and audio system that enable an immersive and realistic portrayal of the night sky, complete with stars, planets, and other celestial objects. As an added attraction, students will also be introduced to the fascinating world of artificial intelligence. Our team of educators will guide participants in virtual space missions, planetarium shows, and Q&A sessions.

- Climate Change Education
- Planetarium and Astronomy Experience
- Why Mars & Astronaut Life
- Telescope lecture and object viewing
- World of AI Artificial Intelligence
