Regional Director
Department of Education
Region III
Diosdado Macapagal Government Center, Maimpis, City of San
Fernando, Pampanga

Dear Director Tolentino,

Greetings from SPRIX Philippines Inc.!

We would like to express our sincere gratitude for your continued support and leadership in the implementation of the Test of Fundamental Academic Skills (TOFAS) across DepEd Region III, which officially commenced last, August 3, 2026.

In light of the ongoing rollout, we respectfully submit this request to extend the official TOFAS testing window in Region III until September 30, 2026.

The original examination schedule was set for August 3 to August 28, 2026. However, we propose extending the timeline through the end of the First Term for the following key reasons:

Maximizing Account Utilization: Allowing testing until September 30 gives participating schools sufficient time to fully utilize all generated student and teacher accounts without rushing test administration.

Addressing Field Feedback: We have received feedback and formal requests from various teachers and ICT coordinators regarding recent shifts in class modalities and instructional timeframes, which have affected their initial assessment schedules.

Under this extended schedule, daily server access will remain unchanged, operating from 6:00 AM to 8:00 PM (Philippine Standard Time) to allow schools maximum flexibility in conducting the assessments during their preferred hours.

We humbly seek your favorable approval of this request to ensure a smooth, inclusive, and comprehensive assessment period for all learners and educators in Region III.

Thank you very much for your valued partnership and dedication to strengthening foundational learning.

Respectfully yours,

HAYATO TSUZURANO
President

No. **255**, s. 2026

ADMINISTRATION OF THE TEST OF FUNDAMENTAL ACADEMIC SKILLS

To: Schools Division Superintendents
Curriculum Implementation Division Chiefs
Public Schools District Supervisors
Division Testing Coordinators
Public Elementary and Secondary School Heads
All Others Concerned

1. In support of the Department of Education's MATATAG Agenda and the Academic Recovery and Accessible Learning (ARAL) Program, this Office, through the Curriculum and Learning Management Division, officially announces the administration of the Test of Fundamental Academic Skills (TOFAS) in partnership with SPRIX Philippines Inc.

2. TOFAS is an AI-driven, highly targeted baseline assessment tool designed to accurately evaluate our learners' foundational numeracy skills. The data gathered from this assessment will serve as the primary basis for our localized mathematics interventions and learning recovery plans.

3. The official testing window for participating schools shall run from **August 10 to August 28, 2026**. Each examination shall last 40 minutes. School Heads may schedule the test on any day within this window, provided it is administered outside regular class hours to avoid disrupting the implementation of the Instructional Block.

4. To ensure a smooth and standardized testing experience, all designated Teacher-Proctors, ICT Coordinators, and School Focal Persons are strictly directed to watch the comprehensive step-by-step video tutorial provided by SPRIX before the testing dates using this link: <https://tinyurl.com/TOFAS-Tutorial>.

5. Regional and Division Education Program Supervisors in Mathematics and Public School District Supervisors shall monitor the administration of TOFAS.

6. Attached to this Memorandum are the following enclosures for strict compliance and guidance:

- a. Enclosure No. 1: Official List of Registered Divisions, Schools, and Total Number of Target Examinees.
- b. Enclosure No. 2: Monitoring Tool

Address: Natalino St. D.M. Government Center, Maimpis,

TOFAS Implementing Guidelines

SPRIX

Introduction

TOFAS

The Test of Fundamental Academic Skills (TOFAS) is a standardized global diagnostic assessment tool designed by SPRIX to visualize the learning progression of students in **Mathematics**. Unlike traditional exams that measure "achievement" against a local curriculum, TOFAS measures proficiency in universal fundamental skills.

Key Features of TOFAS:

Global Benchmarking: Compares Filipino learners' performance against international peers (including Japan and the US) to identify global competitiveness.

Multi-dimensional diagnosis: Enables analysis not only at the student level, but also at the school, district, and regional levels, allowing learning gaps and trends to be identified across the system.

Low Administrative Burden: The assessment is fully digital (Computer-Based Testing), featuring **automated checking and grading**. Teachers receive instant analysis reports without checking a single paper.

This program directly supports the **MATATAG Curriculum** by ensuring that foundational literacy and numeracy are mastered in Key Stages 2 and 3. By identifying learning gaps early, TOFAS enables teachers and school heads to implement evidence-based interventions, ensuring that no learner is left behind due to unidentified prerequisite deficiencies.

3-4. Accounts & Login check

Pre-exam

Exam Day

Post-Exam

1. SPRIX will send Division Focal Persons a link containing an Excel sheet with students' IDs and passwords, together with the link to the TOFAS portal site.
2. The Excel sheet includes student IDs, passwords, and buffer accounts. Schools must access the link shared by the Division Focal persons and use only their respective school's information.
3. At this stage, student names are not registered. As long as the grade level matches, any account may be used. Schools should share the IDs and passwords with students only. Although fields such as subject and organization are included, they may be disregarded.

3. Test Environment

Pre-exam

Exam Day

Post-Exam

Testing Environment

- Ensure enough spacing between devices.
- If using a computer lab, arrange students so that proctors at the back of the room can see all screens at once.
- Students must remove all items from their desk except:
 - The testing device.
 - One pencil/pen.
 - One blank sheet of scratch paper.
- Since TOFAS tests calculation skills, calculators (physical or phone apps) must be strictly confiscated or placed in a "bag drop" area.
- Designate a specific area at the front of the room where all bags and mobile phones must be deposited before the exam starts.
- If students are using their own phones to take the test, they must disable notifications and place the phone flat on the desk. They must not access other sites.

Digital and Technical Countermeasures

- Instruct students that opening a new browser tab or window (e.g., for Google Calculator) is prohibited.
- Inform students that you may check their browser history immediately after the test. If "Calculator" or "Math Solver" appears in the recent history during the exam time, their score will be voided.
- Between batches, it is recommendable to instruct students or facilitators to clear the browser cache/history to remove any trace of previous sessions.

3-4. Login screen

Pre-exam

Exam Day

Post-Exam

After logging in, the screen shown above will appear.

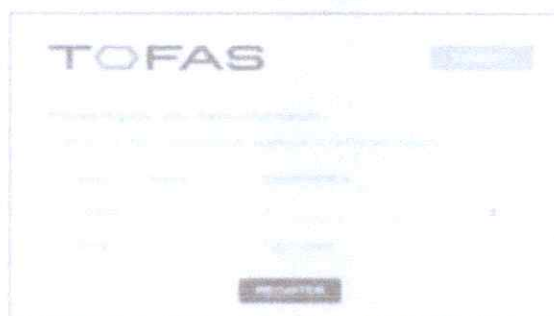

1. Examinee Name and Grade

Fill in the examinee name. Check if the level is correct. Inform the proctor if the level is incorrect.

2. Email (Grade 5 and above can put their emails optionally)

Entering the student's actual email address is NOT mandatory. Students may use a temporary address, such as 1@1.com, if preferred.

Please note that a dummy address may already be displayed in some cases for grades 1 to 4. In such cases, you can simply proceed to the next step without making any changes.

3-4. Handling Unexpected Cases

Pre-exam

Exam Day

Post-Exam

1. To maintain the security of the test and the 40-minute timer, **restroom breaks are generally discouraged** once the exam begins but are allowed in emergencies.
2. In case of accidental internet outage, instruct the student not to close the tab or the browser window. If the questions are already loaded on the screen, the student can continue answering. The answers are saved temporarily on the device. **Provided there is an internet connection when students log in and log out, the test will be considered valid.**
3. In case of device crash/browser closure, **immediately open the browser again.**
4. Immediately instruct students to use one of the **"Buffer Accounts"** prepared for that batch if a student cannot log in.
5. If a student feels unwell, escort the student to the clinic immediately. If they completed less than **50% of the time**, The exam is considered "Void." **They may be rescheduled for a make-up session** with a different batch (using a Buffer ID).

FAQ

- **How long does the TOFAS test take?**
TOFAS test lasts for 40 minutes.
- **Which grade levels will take the TOFAS?**
Grades 1 to 10 are eligible.
- **What are the requirements in taking TOFAS?**
Students may take the assessment using Computer, tablets or smartphones.
- **What are the options for schools that do not have functional computer laboratories?**
If computers are not available, students may take the assessment using tablets or smartphones. Students may use their own devices. If unavailable, the use of a parent's smartphone may be considered where feasible.
- **What is standard internet connection to take the Tofas exam?**
TOFAS does not require high internet speed. As long as you have at least 10 Mbps, you can take the exam without any issues.
- **What if the internet interrupted during the examination?**
Provided there is an internet connection when students log in and log out, the test will be considered valid.

SPRIX

TOFAS

FAQ

- **Can teachers take TOFAS?**
Level 3 accounts are issued to elementary school teachers, and Level 6 accounts are issued to junior high school teachers. We encourage you to take the test.
- **What if students can't log in TOFAS?**
Please check the username and password carefully and ensure there are no typographical errors. If the student is still unable to log in, you may use the buffer account.
- **Why are student names not included in the IDs and passwords provided by SPRIX?**
Student names will be entered by the students at the time of the examination. Please ensure that the same ID and password are not assigned to different students.
- **Which browsers are supported?**
TOFAS assessment supports the latest versions of Google Chrome, Mozilla Firefox, Microsoft Edge and Safari (for Mac users).
- **What if Student accidentally close the browser?**
The student can access TOFAS again and resume the test from where they left off.
- **Is email address entry mandatory?**
No. For Grades 4 and below, a dummy email address has already been assigned. For Grades 5 and above, email address entry is optional.

FAQ

- **What are the alternative implementation modalities for schools that do not have functional computer laboratories?**

→ If computers are not available, students may take the assessment using tablets or smartphones. Students may use their own devices. If unavailable, the use of a parent's smartphone may be considered where feasible. As supervision may become more challenging in such cases, schools are advised to ensure appropriate monitoring during the examination.

- **Is there a mandated schedule for the assessment, or can it be administered during regular Math periods?**

→ The assessment period is scheduled from August 10 to 28. During this period, the exam may be administered on weekdays (excluding weekends) between 6:00 AM and 8:00 PM. Schools may conduct the assessment at any suitable time within this window, including regular Math periods.

- **Does the system utilize question randomization to ensure the integrity of the assessment results?**

→ Yes. Questions are randomized while maintaining a consistent level of difficulty.

SPRINK

TOFAS

FAQ

- **What is the protocol for assisting Key Stage 1 (Grades 1–3) learners who may lack the necessary digital literacy or computer navigation skills?**

→ TOFAS does not require advanced typing skills. A large number of learners in these grade levels have already successfully taken the assessment. Since login and password entry may require assistance, teachers are encouraged to support students. Teachers are also advised to instruct students to review the tutorial instructions, enter their answers carefully, and click the Finish button upon completion.

- **What are the recommended options for schools in Geographically Isolated and Disadvantaged Areas (GIDA) with limited or intermittent internet connectivity?**

→ TOFAS Math is designed as a lightweight system and does not rely on video content. Students may take the exam as long as an internet connection is available at the time of login and submission only. Even with unstable connectivity, the assessment can generally be completed. If the school has no internet access, the use of mobile data via smartphones may be considered where feasible.

- **Are teachers and school administrators permitted to undergo a simulation or "trial run" of the exam prior to the actual student rollout?**

→ Yes. Teachers will be provided with Level 1 accounts for familiarization and simulation purposes.
