CECILIA E. VALDERAMA, PhD, CESO VI
Schools Division Superintendent

Dear Dr. Valderama:

Greetings in the name of inquiry and innovation!

On **December 10-12, 2026**, La Consolacion University Philippines (LCUP) will be hosting the **5th LCUP-GE&RA International Research Conference (LCUP-GE&RA 5.0)** via hybrid modality at the **BarCIE International Center, La Consolacion University Philippines, City of Malolos, Bulacan**.

Anchored on this year's theme, ***"Bridging Knowledge, Transforming Communities: Interdisciplinary Research for Sustainable Development,"*** LCUP-GE&RA 5.0 highlights the role of interdisciplinary research in generating relevant, ethical, and transformative responses to challenges in education, health, technology, governance, culture, environment, and society. The conference recognizes that research must go beyond knowledge production and extend into communities through initiatives, policies, innovations, and practices that respond to real and pressing needs.

Aligned with the United Nations Sustainable Development Goals (SDGs), the conference aims to provide an international platform for scholars, researchers, educators, professionals, practitioners, and students to exchange insights, strengthen interdisciplinary partnerships, and present research initiatives that contribute to sustainable and community-centered development. At its core, LCUP-GE&RA 5.0 seeks to bridge the distance between what we know and what we are able to do with that knowledge. We believe that research becomes most meaningful when it reaches communities and responds to real needs. Its greater promise lies in what that knowledge allows us to change, improve, and contribute to the communities we serve.

In line with this, we respectfully seek the endorsement of your esteemed Office to encourage participation from **DepEd Bulacan Schools**, both as research presenters and conference participants. With the continued support of **DepEd Bulacan** in advancing research and innovation, we are confident that this initiative can provide educators and researchers with another meaningful avenue to share their work, engage with fellow scholars and practitioners,
