☐ SECONDARY SCHOOL PRINCIPALS / SCHOOL HEADS	
For information:	
CECILIA E. VALDERAMA, PhD, CESO VI	
Schools Division Superintendent	

Dear Dr. Valderama:

Warm greetings from ZEP Research!

On behalf of ZEP Research and the Organizing Committee of the **4th International Conference on Sustainability, Innovation, and Future Technologies (ICSIFT 2027)**, we respectfully express our sincere appreciation for the valued partnership established with the Department of Education – Schools Division Office of Bulacan during the **3rd ICSIFT**.

In recognition of our existing Memorandum of Understanding (MoU) and the successful collaboration between our institutions, we would like to formally request the continuation and strengthening of our institutional partnership for the upcoming **4th ICSIFT 2027**, scheduled for **21–22 February 2027 in Bangkok, Thailand**.

ICSIFT serves as an international platform for educators, researchers, academic leaders, and professionals to exchange knowledge, present research, and explore innovative approaches to sustainability, education, technology, and interdisciplinary development. We believe that continuing our collaboration with DepEd SDO Bulacan will further support academic engagement, educational innovation, research dissemination, and international knowledge-sharing opportunities.

In this regard, we respectfully seek the Division's consideration and support for the following:

1. **Continuation of the Existing MoU and Institutional Partnership** – To sustain our collaborative relationship established during the 3rd ICSIFT and continue exploring mutually beneficial academic and professional initiatives.

**4th INTERNATIONAL CONFERENCE ON
SUSTAINABILITY, INNOVATION, AND
FUTURE TECHNOLOGIES**

 **21st - 22nd February, 2027**
 **Bangkok, Thailand**

2. **Committee Participation and Collaboration** – To invite qualified representatives, education leaders, supervisors, and other appropriate personnel from DepEd SDO Bulacan to participate in the conference's organizing, scientific, technical, or advisory committees, as may be appropriate and subject to the Division's approval.
3. **Promotion of Conference Participation** – To encourage interested teachers, education professionals, researchers, and other qualified personnel to participate in ICSIFT 2027 through research presentations, knowledge-sharing activities, and professional engagement, subject to applicable DepEd policies and procedures.
4. **Future Collaborative Initiatives** – To explore additional opportunities for joint activities, including research dissemination, educational innovation initiatives, webinars, professional development activities, and other mutually agreed programs aligned with the objectives of both institutions.

We would be grateful for the opportunity to continue working with DepEd SDO Bulacan and to build upon the foundation established through our previous collaboration. We are confident that this continued partnership can create meaningful opportunities for educators and researchers while strengthening our shared commitment to innovation, sustainability, and educational development.

We respectfully request your favorable consideration of this proposal. We would also welcome the opportunity to coordinate with your designated representatives regarding the appropriate next steps for continuing the MoU and confirming the Division's participation in ICSIFT 2027.

Thank you for your time, consideration, and continued support of academic collaboration and educational advancement.

Respectfully yours,

MURMINA BAHIDJAN SALIM
Conference Chair- 4th ICSIFT 2027

4th International Conference on **Sustainability, Innovation, and Future Technologies**

"Sustainable Innovation: Bridging Technology and Environmental Stewardship"

Bangkok, Thailand

21st - 22nd February, 2027

Welcome Message

Introduction

Zep Research is a global leader in advancing academic excellence and fostering innovation. Specializing in organizing impactful conferences, research initiatives, and collaboration opportunities, Zep Research creates dynamic environments where researchers, academics, and industry professionals come together to share knowledge, exchange ideas, and collaborate on groundbreaking work across various industries.

About the Conference

Theme: "Sustainable Innovation: Bridging Technology and Environmental Stewardship"

The 4th ICSIFT, taking place in the vibrant city of Bangkok, Thailand, aims to engage in discussions and identify how and where sustainability, technological innovation, and industrial futures intersect.

From 21st - 22nd February, 2027, 4th ICSIFT will gather experts from every sphere to speak on innovative research, eco-friendly solutions, and technological advancement.

The conference involves keynote addresses, panels, and practical workshops to advance knowledge and start partnerships to promote sustainable development. With an emphasis on practical, scalable solutions and forward-thinking research, 4th ICSIFT promises to be an inspiring showcase of how new technologies are going to drive a more sustainable future for our planet.

Our Vision & Mission

Movement Goal

Vision

Connect with like-minded professionals and thought leaders to spark new ideas, collaborations, and opportunities for joint projects.

Mission

The Conference on Sustainable Development aims to bring together leading researchers, policymakers, and industry experts to share knowledge, discuss challenges, and forge partnerships that will drive forward the global sustainability agenda.

Who Can Attend

👁 Academics & Researchers

👁 Industry Professionals

👁 Policymakers & Government Officials

👁 Entrepreneurs & Startups

👁 Students & Emerging Scholars

👁 Environmental Advocates & NGOs

Call for Paper

Sustainable Development and Environmental Technologies

- Renewable Energy Systems and Green Technologies
- Climate Change Mitigation and Adaptation
- Sustainable Agriculture and Food Security
- Environmental Management and Policy
- Circular Economy and Waste Management

Artificial Intelligence, Data Science, and Emerging Technologies

- Artificial Intelligence and Machine Learning Applications
- Big Data Analytics and Predictive Modeling
- Internet of Things (IoT) and Smart Systems
- Robotics and Automation
- Blockchain and Cybersecurity

Engineering Innovations and Smart Infrastructure

- Smart Cities and Urban Development
- Civil, Mechanical, and Industrial Engineering Innovations
- Advanced Materials and Manufacturing Technologies
- Transportation and Mobility Solutions
- Sustainable Construction Technologies

Management, Economics, and Sustainable Business Practices

- Sustainable Business Models and Entrepreneurship
- Green Finance and Economic Development
- Sustainable Management and Digital Transformation
- Supply Chain and Operations Management
- Corporate Social Responsibility (CSR)

Science, Technology, and Future Innovations

- Biotechnology and Life Sciences Innovations
- Nanotechnology and Advanced Scientific Research
- Healthcare Technologies and Medical Innovations
- Space, Defense, and Advanced Research Technologies
- Interdisciplinary Scientific Innovations

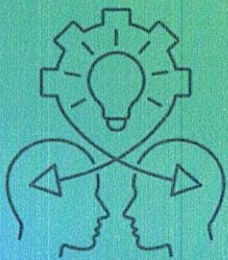

Social Sciences, Education, and Policy for Sustainability

- Education for Sustainable Development
- Public Policy and Governance
- Social Innovation and Community Development
- Ethics, Technology, and Society
- Digital Learning and Educational Technologies
- Linguistic and Sustainable Technologies

Objectives of the Conference

The conference aims to address key challenges in sustainability through collaborative efforts and innovative approaches.

Knowledge Exchange

Facilitate the exchange of cutting-edge research, innovations, and best practices in sustainability across disciplines.

Education & Awareness

Raise awareness about sustainability issues and educate participants on effective strategies for positive change.

Innovation Showcase

Highlight innovative solutions and technologies that address pressing environmental and sustainability challenges.

Network Building

Create opportunities for researchers, practitioners, and policymakers to build lasting collaborations and partnerships.

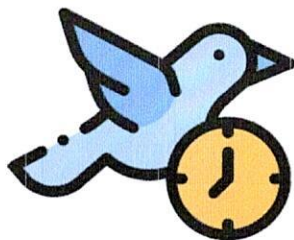

Global Impact

Develop actionable recommendations for policy and practice that can drive global sustainability transformation.

Conference Important Dates

Key dates to remember for the International Conference on Sustainability, Innovation and Future Technologies

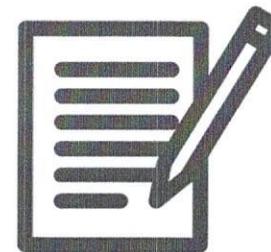

**Early Bird
Deadline**

29th November

**Abstract
Submission
Deadline**

26th December

**Full Paper
Submission
Deadline**

31st December

**Registration
Deadline**

27th December

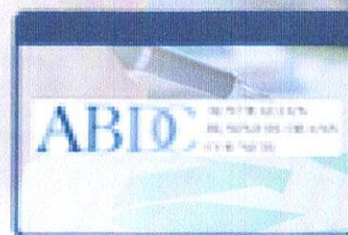

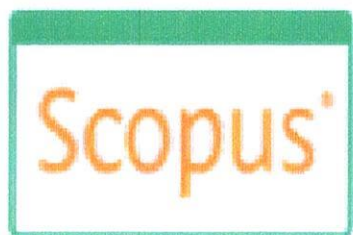

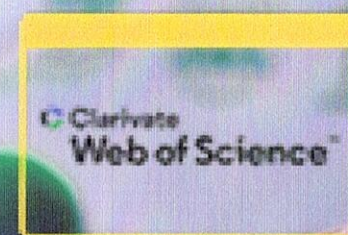

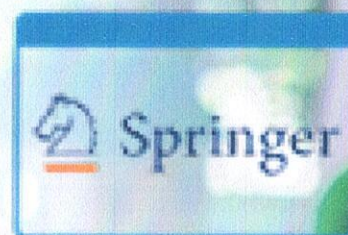

Conference Venue

Bangkok, Thailand

Bangkok, Thailand offers a modern, comfortable, and centrally appealing venue for 4th ICSIFT. Renowned worldwide for its pristine white-sand beaches, clear turquoise waters, and vibrant island atmosphere, Boracay provides an inspiring setting for international academic exchange
